"BLOEMFONTEIN, April 13, 1:30 pm.—The enemy's movements south have been checked. Wepener is still surrounded, but the little garrison is holding out well. Troops are being moved to their assistance. The health of the troops is good, and the climate perfection."

BLOEMFONTEIN, April 13. — Accounts received here of the fighting of the troops under Col. Dalgety at Wepener show that the Boers attacked them vigorously, but were repulsed with great loss. The Boers subsequently relinquished the attack, and it is said here that they are returning northward.

BOER RAIDS.

THEIR MOTIVE NOT CLEAR.

[A. P. BARLY A.M. REPORT.]

NEW YORK, April 13.—A dispatch to the Tribune from London says the motive for the Boers' reconnaissance in force on Sunday River on two successive days is not clear. One dispatch states that raiding parties are advancing toward Weenan, through Helpmaaker to the south and toward Dewdorp to the west of Ladysmith. If these raids had been planned, the attack upon Clery's camp was an effective method of diverting attention from them. Probably, the Boers have become restless during the five weeks of inaction, and it was necessary for their new commander to find employment for them, and also inspirit the burghers at Pretoria by sending builetins of victory like those which are telegraphed from Lorenzo Marquez.

No definite results have been accomplished by this spasm of Boer activity. There was a continuous rife fire, followed by artillery practice, for several hours on Wednesday, but the Boer attack was neither vigorous nor perjaisent. There was a change of tactics since the Boer positions were disclosed, whereas they have usually concealed their ginna. This was not important, since the Boer positions were disclosed, whereas they have usually concealed their ginna. This was not important, since the Boers occupied a temporary line of defense, with a permanent one further back of much greater strength.

The Boer operations in the southeastern corner of the Free State are equally indefisive. The commando on the north bank of the Orange River is content with blocking the passage of a relief column to Wepener and is not attacking Aliwal North. Wepener of the Boer round of the Boer runnor of the death of Baden-Powell, but there is a heavy list of casualties from Plumer's unsuecessful fight six miles north

(A. P. NIGHT REPORT.)

LONDON, April 14.—[By Atlantic Cable.] The Times has the following from Jammersberg, dated April 12:

"Col. Dalgetty's force has been surrounded by some thousands of Boers, with eight guns, two pompoms and two Maxims, since Monday morning. They have gallantly withstood a heavy attack on Monday, and again a might attack Tuesday, and Thursday there was a continuous shell and rifle fire.

"We are confident of being able to repuise any attack. Food is plentiful. Our casualities, in the circumstances, are small. The brunt of the fighting, and also of the loss, has been borne by Cape mounted riflemen."

been here in one form or the other for years and that are likely to remain here for some time yet.

His first reason is that the passage of the bill now would be in violation of the Clayton-Bulwer treaty, and a show of bad faith on our part, because there is pending in the Benate the Hay-Pauncefote treaty, which is intended to take the place of the Clayton-Bulwer treaty, if ratified. The second reason is that the bill commits the United States to a fortified canal, and Mr. Burton wants one with no fortifications. The third reason is that a commission is now investigating the question of routes, and that commission has made no report. All this, of course, is for the galleries, and the fact is, Mr. Burton and his like are placing the Repablican party in a mighty awkward position. The Times correspondent does not know of one 'Democrat in the House who would not vote for the passage of the canal bill without debate. The objection all comes from the Republican side.

BURTON'S FULL STATEMENT.

[A. F. DAY REPORT.]

WASHINGTON, April 13.—Mr. Burton, whose objection to the consideration of the Nicaraguan bill attracted much attention today, explained his course in the following authorized statement:

"I wish it distinctly understood the objection is made upon my own responsibility. Objection to the consideration of the pending bill was made because,

ation of the pending bill was made because,

"First—It abrogates a treaty sold emaly entered into and now in full force. While its abrogation his been accomplished by the passage of this bill, such action is without precedent in our relations with foreign powers; it is also unnecessary because the same result could be obtained by the Hay-Pauncefore treaty, a measure which, though much misunderstood is nevertheless a triumph of diplomacy.
"Second—It commits us to a fortified canal instead of a neutral canal is not in accordance with the general tener of our own policy, but would best subserve our own interests."

but would best subserve our own interests.

'Third—There are also serious objections to the present consideration of this bill which might not exist at a later time. It is desirable that the present commission, the first which has given comprehensive and complete consideration to the subject of the construction of an international canal, should complete its work before a route is selected. In the same line it is desirable that provisional treaties be made with the countries controlling each of the proposed routes, vis.: Costa Rica and Nicaragua on the one hand, and Colombia on the other hand. To pass a bill committing the United States to either of these routes would prevent us from obtaining as favorable terms for right of way and control as could readily be obtained in case the question of the route should be postponed.

REGULAR SESSION.

IA. P. DAY REPORT.]

WASHINGTON, April 12.—HOUSE—This was private pension bill day in the House, but before the regular order was called, the House voted on the joint resolutions which were under discussion when the House adjourned yesterday, for a constitutional amendment to provide for the election of United States Senators by a direct vote of the people. The majority resolution isft it optional with the States whether their Senators should be elected directly or by the Legislatures. The minority resolution made it incumbent that each State elect by direct vote.

The minority resolution, which was offered as a substitute, was voted upon first, and was carried by an overwhelming vote—Yeas, 135; nays, 30.

Mr. Corliss tried unavailingly to get a yes-and-nay vote, but only nine members seconded the demand. The vote was taken upon the adoption of the amendment, the whole House rising in support of the demand. The resolution was adopted by 240 to 15.

The negative votes were M ss: a. BILL TO GIVE THEM RANK. (A. P. DAY REPORT.) (A. P. DAY REPORT.)

WASHINGTON. April 12.—The Secretary of War has forwarded to Congress, with his approval, the draft of a bill prepared by Surgeon-General Sternberg, providing for the appointment of contract surgeons who have rendered one year's faithful and satisfactory service in the army of the United States as assistant surgeons of volunteers, with the rank of first lieutenant. The bill provides for such appointments after the usual examination as to physical and professional qualifications, and the officers so commissioned are to be subject to honorable discharge whenever their services are no longer required. The bill also provides for the promotion of such assistant surgeons to rank of captain after two years of faithful and satisfactory service.

NEW YORK, April 13.—A second the Herald from Washington says that besides instituting negotiations to secure the transfer to the United States of the Danish West Indies and Chatham Island, of the Gallapagos group, the United States has been quietly endeavoring to obtain the consent of Colombia to the establishment of a coaling station in Almerante Bay, in the Boca del Toro, near Chiriqui Lagoon, Colombia.

The propositions have not been received with favor by the Colombian government. The reply of Colombia announced that there are "insuperable obstacles" in the way of acquisition by this government of a site at the point designated. But while the Colombian government will not part with land on Almerante Bay, it has indicated that it is willing to dispose of Old Providence and St. Andrews Islands. off the coast of Nicaragua, which, however, are not suitable for naval purposes.

The authorities are not disheartened at the result of the negotiations, as Almerante Bay contains territory claimed by both Colombia and Costa Rica.

REMOVAL OF OFFENDERS.

WASHINGTON, April 22.—Some time ago proceedings were instituted by the Department of Justice to secure the removal to Savannah, Ga., of Benjamin D. Green, John F., William T. and Edward H. Gaynor and Michael A. Connolly, who were indicted by the grand jury of the United States District Court of Georgia for conspiring to defraud the United States Upon two contracts relating to harbor improvements at Savannah and in Cumberland Sound.

The United States Commissioner at New York, where the defendants were apprehended, held in effect that the certified copy of the Georgia indictment, followed by the identification of the defendants, was sufficient to justify their removal. District Judge Addison Brown, however, held to the contrary, and further that the government was required by affirmative proof to make out a case of probable guilt, and that the defendants were entitled to go fully into their defense and to produce evidence on their part to rebut the presumption of guilt raised by the proofs of the government.

ANOTHER'S INJURIES SERIOUS.

[A. F. DAY REPORT.]

REDDING, April 13.—Another victim must be added to the list of seriously injured in Thursday evening's railroad accident near Cottonwood. He is a section hand named Theodore Williams of Hooker, and is quite badly cut about the head. His condition is considered serious. When the dead, dying and injured were taken from the debris of the wreck it was thought that Williams was no worse injured than twenty odd other section men, but physicians find the case otherwise.

Hopes are now entertained for the recovery of George Greene, of Redding. He sustained terrible external bruises about the head, hands and right leg, but as there are no indications of internal injuries the physicians have hopes for his recovery. With the body of his young brother Oscar, he was brought to the home of his widowed mother today. The poor woman is nearly insane with grief.

Conductor Bryce cannot understand how he escaped with such slight injuries. He was one of five in the cabosse and three of the others are dead and the life of the fourth is hanging in the balance. There is little change in the balance. There is little change in the balance. There is little change in the sondition of S. R. Heins who is believed to be fatally injured. A. D. By this action, which was taken at the session of the board today, the accused members are not permitted to have any part in the examinations from which, according to the accusations of witnesses, they expected to derive a profitable revenue.

The board also determined to cancel the oral examinations already held, and the classes were reëxamined this morning. President Searby prepared new questions for the class in pharmacy, and Mr. Chardenner did the same

FOR READY MONEY. the "divine healer," and incidentally his record in San Francisco, were ex-ploited before United States Commis-sioner Fiske today. Two of the wit-

sioner Fiske today. Two of the witnesses who appeared against Truth are
prominent in Boston. Sarah E. Reed,
a society woman, testified that she
made a contract with Truth to cure
her child. She was to pay 1300 and
was to bring the child to the office
five times for eight weeks. At the
end of the fifth week she was dissatisfied with the treatment and complained to Truth. The treatment, she
said, consisted of holding the child's
hand. The child grew worse. The
mother again called on Truth and tole
him of the failure of his treatment.
She declared that Truth used insulting
language, and came toward her in such
a menacing manner that she left the
place in haste.

The other prominent witness who testified against Truth was Maj. Joseph McDonnell, a veteran of the Civil War, who rode to Truth's office in his private landau to be cured of bronchal trouble contracted in war days and which had been chronic with him. He had spent a isrge amount of money in endeavoring to get relief. In describing Truth's methods, Maj. McDonnell said: "He took my right hand in one of his, and pressed the thumb and finger against the back of my head. This was to create a circuit, and while in this position he kept telling me about waves of electricity, wireless telegraphy and other things of the sort. After that he pressed both of my temples with his fingers. For this treatment he charged me \$10 a sitting."

"Dr." Truth was held in \$5000 for the grand jury on a charge of using the mails for purposes of fraud.

LACK OF FIGHTING STORIES.

[A. P. DAY REPORT.]

LONDON, April 13, 12:30 p.m.—[By Atlantic Cable.] Judging from the lack of news from the front, Good Friday is being kept in South Africa as religiously as it is in London. Bresumably the situation remains unchanged, though word from Wepener is awaited with interest, and probably before the day is over a dispatch will be received from Lord Roberts.

A special dispatch received here from Cape Town says that Lady Roberts will proceed to Bloemfontein in a few days, and that the Duke of Westminster has already departed for the Free State capital. Early this morning Cape Town was as much in the dark regard ng the progress of the campaign as London is at the present hour.

TRANSPORT IN TOW. three weeks, and will there open the grand opera season of 1900-01.

"The company will start from Europe Cotober 20, and proceed direct to San Francisco. It will be the first time on record of an opera company making such a jump as that. It will be an epoch in the musical history of San Francisco, which place has been visited by no grand opera company since the season of 1800, when Mme. Pattiand M. Tamagno were there.

"The company, which will number about 125 people, will arrive in New York October 27, and proceed at once across the continent in a special train. The entire trip will occupy altogether about 225 people, will arrive in New York City December 18, the number of cities after leaving San Francisco at which we shall be able to give ferformances will be very limited, probably they will be confined to Los Angeles two nights, perhaps Salt Lake City one night, and St. Paul and Minneapolis three nights. The company will come direct from Minneapolis, where it will close, December 14, to New York City. I don't care to name the members of the organisation, as it will be then, as naturally the company is not yet completed."

Although Grau has not definitely completed his arrangements, and has not engaged his complete company, still it is stated that engagements have been already entered into with Mmes. Melba, Emma Eames, Lillian Nordica, Ernestine, Miss Mathilde Bauremister, Miss Susanne Adams, Susan Strong, Louise Homer, Carrie Bridewell, Gadski, Olitska, Pringle, De Resske, Plancon, Herr Andreas, Dippel, Herr Adolph Muhimann, Sig. Guiseppe Campananari, Delucia, Bonnara, Scotti, Gillibere and Journet. Mancinelli, for the French and Italian operas, and a well-known German, will be taken with the company to San Francisco.

COLORED ATTORNEY AT WORK

[A. P. DAY REPORT.]

.FRANKFORT, (Ky..) April 12.—R.
C. Benjamin, the colored attorney for
"Tallow Dick" Combs began to argue
the demurrer he filed to the response
of the commonwealth to the writ of

NOTABLE OCCASION CELEBRATED AT EVANSVILLE, IND. (A. P. EARLY A.M. REPORT.)

AT EVANSVILLE, IND.

(A. P. EARLY A.M. REPORT.)

CHICAGO, April 13.—A special to the Tribune from Evansville, Ind. says the banquet last night in honor of the ex-Minister to China, Charles Denby, was the most notable occasion of its kind ever celebrated in that city. Mr. Denby has been absent from his home city sixteen years. John W. Foster, Secretary of State in the Harrison administration, presided. Col. Denby's speech was notable in that he gave the American missionaries credit for the "open door" in China. He said, in part:

"It is plain that we should not stand didy by and see hostile camps established in China under the plea of leaseholds, if the lessees intend to make us pay greater duties than our treaties provide for. Russia might lease the whole of Manchuria, England, the Yang Tse Valley; Germany, Central China, and France the southern, and deprive us of the most promising markets."

In regard to the Philippines, "Mr. Denby said their disposition would be settled when the insurrection is suppressed.

Real Economy in Kid Gloves.

Today is the Best Time of the Year to prove that, Stocks are Fullest. Styles are Newest. There is more to a kid glove than its looks. A glove that loses its shape after the first wearing, or cracks, or streaks,

is not the glove you want—however pretty it may-be. A glove that disappoints is not the one for us to sell or you to buy.

These Gloves are the finest blending of Style, Service and Low Prices we know of. We could find scores of gloves with which we could make more profit, but they are not the safe glove on which to build a glove business. There are factories whose sole object is to see how pretty and how cheap they can make gloves. Note this: Our gloves are not made cheap, they are bought cheap. We don't ask you to take a chance with these. We have tested them. We stand back of every one. There are the finest examples of real economy in kid gloves you can find.

The Broadway Real Kid-Dollar. We have had

The "Marilla" is our \$1.25 Glove. It's the swellest glove we know of for the price. As it is superior in wear as well as style. They are in two-clasp, with Paris-point stitched backs.

The Broadway Pique-Dollar. Of prime lamb-skin. We are so proud of it that we put our name in it. It's a shapely, splendid wearing glove, with

fancy backs; clasp fastenings. Choose from the leading shades—greys, modes, castors, browns, reds, black and white.

The "Rosalie" our \$1.50 Glove- This is glove made to our order, by one of the best makers of Grenoble, France. It is the result of the highest art; made of the real kid skin, fastened with three clasps and fancy Paris point backs. It fits and looks and wears like \$2 ones—in fact it is a \$2 one. stores, under the management of the Mine Workers' Union.

As far as can be learned, not a single act of violence has been committed, nor has there been any coercion, except in the case of about twenty men who were inclined to return to work yesterday. These were waited upon by a committee backed by about 300 strikers, and after some persuasion they abandoned the notion of going to work. No work is being done in any of the mines in the region.

All the mechanics and laborers in the employ of the Cumberland Iron and Steel Shafting Works went on a strike last night. About 250 men are involved.

In fact, it is doubtful if the ordina citizen could give a reasonable expla-nation of the reason for its observance. But to the Jew it is a symbol of deliverance from bondage. It is a Fourth of July, 3000 years old. It is more than a tradition, it is a sacred memory

and a solemn rite. The Jewish Passover is now being observed by the faithful adherents of the church. The observance com-menced with services at the Synagogue at 6 o'clock last evening. This obs

menced with services at the Synagogue at 6 o'clock last evening. This observance of the custom, which has been handed down through the centuries, is one of the most important seasons provided in the Jewish ritual. It is one of the most sacred of the Mosaic festivals provided for in the Pentateuch. It marks the beginning of the new era of the life of the people of Israel. It is celebrated in the month Nisan, which is the first month of the Hebrew calendar. In other words, the ecclesiastical year of the Hebrew, begins with this month.

The festival, for it is a time of rejoicing as well as a solemn religious occasion, commemorates, according to biblical literature, the exodus of the children of Israel from Egypt. The name "Passover" is taken from the fact that when the Israelites were making their preparations for flight and were gathered in their homes in prayer, the lintels of the door posts were to be touched with blood so that the angel of the Lord, when he passed over the land, smiting the first born of the Egyptians with Divine wrath should pass over the homes of the Israelites. And while the idolatrous

Egyptians were mourning the visitation of death in their homes, God's chosen people began their journey of deliverance from bondage.

Thus reads the biblical account of the first "Feast of the Passover" or "Pesach." The foundation of the festival is sternly and practically poetical. As observed by the faithful of the Hebrew faith it is devotional and symbolical.

At 6 o'clock last svening Rabbi Hecht read the beautiful ritualistic service provided for the occasion at the Synagogue B'nai B'rith. The lofty thoughts promulgated seemed almost like the thunders of Omnipotence from the mountain. The music was in entire keeping with the solemnity of the occasion.

keeping with the solemnity of the occasion.

After the service at the Synagogue the families repaired to their homes to eat of the unleavened bread and the bitter herbs. But the feast is not confined to the symbolic references. The choicest delicacles are provided, and the service in the home is beautiful. The head of the home leads in the reading, but all the family join in the responses, from the oldest to the youngest. When all the members of the family are seated around the festal table the master of the house addresses the King of Kings. "Blessed art thou, O God, King of the universe, who hast brought forth Israel from bondage to freedom, from sorrow to joy, from mourning to festivity, from darkness to light and from servitude to redemption. Thou hast caused us to attain the enjoyment of this night, to eat thereon unleavened cakes and bitter herbs. Let all those who are hungry, those who are needy, let them come and celebrate with us the Passover service."

The service at home, which is not

only a thanksgiving for the deliverance of the fathers from bondage, but for more recent blessings, is a grand pean of liberty. It is a thanksgiving for relief from oppression in recent years as well as in ancient times.

The modern school of Judaism gives more emphasis to the idea of liberty which underlies the real meaning of the festival, and on this occasion the Hebrew teaches his children to look upon the occasion in the same manner as they as Americans should look upon the Fourth of July, the birthday of Liberty.

The celebration of this important event in the Jewish calendar lasts for seven days, according to the custom of the modern Jew. The first and the seventh are regarded as holy days and are kept with special observances. The orthodox Jew observes eight days, the first and second and the seventh and eighth being holy days.

At 10:30 this morning Rabbi Hecht will address the congregation at the Synagogue. His subject will be "Liberty our Watchword; our Mission, Peace."

youngest. When all the members of the family are seated around the festal table the master of the house addresses the King of Kings. "Blessed art thou, of God, King of the universe, who hast brought forth Israel from bondage to freedom, from sorrow to joy, from mourning to festivity, from darkness to light and from servitude to redemption. Thou hast caused us to attain the enjoyment of this night, to eat thereon unleavened cakes and bitter herbs. Let all those who are hungry, those who are needy, let them come and celebrate with us the Passover service."

On the other hand, Emerson appeals to us to take the part of the truth in what we say and be brave in our choice of subjects of conversation. But to discuss subjects on which one may differ from the other party to a conversation is not necessarily to enter into dispute with him. Tolerance and courtesy may be maintained even where there is a wide difference of opinions, and, given these qualities, a diversity of ideas may lend sest to conversation. There is no more unpleasant and humiliating person than the man who makes it a point never to differ with a syoman, and on the second floor have been frescoed, never to differ with a syoman, and on the conversation is not a debate.

CLUBS OF WOMEN.

WEEKLY SESSION OF THE FRIDAY MORNING CLUB.

The lecture of the week before the Friday Morning Club was by Mrs. Horace R. Boynton on "The Art of Conversation."

Mrs. Boynton began by asking the question whether women had the gift of fluent speech. Reference to the remarks of both their detractors and their flatterers brought a mass of testimony to show that they are, in general, fluent talkers. But every gift involves a responsibility. It behooves women to develop and direct their natural ability of speech. "What, tilen, is conversation?" asked the speaker. "There are three things that it is not. It is not a lecture. It is not a debate, It is not an orchestra.

"It is not an orchestra.

"It is not a lecture. Men whose minds are storehouses of wisdom and fancy are sometimes inclined to become too diffuse, to overstep the bounds that they would be inclined to become too diffuse, to overstep the bounds that they would be inclined to become too diffuse, to overstep the bounds that they would be inclined to become too diffuse, to overstep the bounds that they would be inclined to become too diffuse, to overstep the bounds that they would be inclined to set for less-gifted mortals. Coleridge and Macaulay were sinners of this kind. When Sidney Smith called the latter improved, the best he could say was, "He has occasional flashes of silence that make his conversation perfectly delightful. Those who overwhelm us with an everlasting flood of trivialities are, of course, still less to be commended than those who continually ledightful. The Current Events Club gave a reception Thursday afternoon in the lecture-rooms of the Presbyterian Church, in honor of Mrs. Robert J. Burdette, of Pasadens. Following the reception, which lasted from 2 to 3 o'clock, Mrs. Burdette spoke in the auditorium of the church on "Woman's Club Life, and the Federation of Clubs." She is a firm believer in clubs as a means to the betterment of home and of communities. "Let the home always be first, and the club next," she said, "and if a woman can attend to but one, let it be the home." Mrs. Burdette told of many reforms that have been accomplished and unbounded good that has been done by clubs of women. By the federation of clubs, each club is kept in touch with the life and progress of the others. The speaker's remarks elicited frequent

It appears, however, from late statistics, that the proportion of killed and wounded on the British side has been only a little over six per cent. of the total number of men engaged. This proportion as a Paris paper says, is very small when compared with the great hattles of Europe. It is small, also, as compared to the battles of our own civil war.

The insurgents regarded it as absolutely impregnable. MacArthur ordered four guns to the front.

Gen. Hale at once took the field in person, and reached the firing lines to find that the Nebraskans were deployed behind a rice-ridge in the field at the right of the road; that the lowans had taken a position on their right and the cavalry were posted on the left. The Filipinos were pouring a fierce and deadly fire on our lines. The general waited for our guns, which were rapidly coming up the road, placed them at the edge of the woods, ordered the Nebraskans, who were between his cannon and the enemy on the right, to withdraw to the woods as soon as the artillery began firing on the left, thus permitting the shelling of the insurgent trenches in front of the Nebraskans before they advanced, and then opened with the artillery.

The Nebraska firing line, however, began to advance under a terrific musketry discharge. Thinking that his instructions had been misunderstood. Hale ran down the road toward the Nebraskans- and discovered that Col. Stotsenberg, who had just come out and was not aware of the general's plan and orders, had gone to the front, and, with his characteristic, impetuous bravery, had given the order to advance. It was too late to recall the men, who had by this time almost reached the enemy's trenches and were fighting with the courage and spirit of Napoleon's Old Guard. The Filipinos in this fight delivered a very effective fire, and within a few hundred yards Col. Stotsenberg, Lieut. Don't it beat the Tagalos that so many of us are willing to sacrifice ourselves on the altar of our country at the rate of five thousand a year? And so many more are anxious to throw away the balance of their lives working for Uncle Sam, here in Washington, at so much per balance. They are not particular what the job may be, if it is easy and the salary large and sure.

A dear friend of mine is desirous of obtaining the position of Second Assistant Superintendent of Door Knobs at the White House; office hours from it a.m. to 1 p.m.; salary, \$1783.33 1-3. I did succeed in getting another dear constituent the position of Thirteenth Assistant Doorkseper of the Cloakroom, and within twenty-four hours he wanted his salary rasked, or the country would go to the devil, and Alaska would be left out in the cold without her political rights or water for irrigation. Another constituent called yesterday and wanted a job. This was one of the "open-faced," nonvoting kind; a maiden, over whose bloom the sun of sixty-seven summers had passed. She was pathetic in her appeal, and shed copious tears, which gave me damp feet, and I have been obliged to wear rubber overshoes eversince. Various plans had been suggested, among them that of abandoning the work on the east end, devoting all the energy of the contractors from the other end of the drift, so that it would soon be known just how much of the stratum of swelling earth would be encountered. To this plan Contractor Swensen objected. He declared that it would mean a delay of from four to six months in the completion of the work, and such a delay would be very costly to him. He thought the city should provide a way of overcoming the difficulty at the eastern end of the tunnel, and he insisted upon his right to push ahead with the work there. He explained that he did not desire to act in an arbitrary manner, but he is not in position to stand financial loss while the city is experimenting. City Engineer Oimsted gave the size and thickness of the arch provided for in the specifications. This arch, he said, was strong enough to stand the strain under ordinary conditions, but it would not be strong enough for the abnormal pressure exerted by the swelling of the earth behind it. He shought, however, it would be possible to so increase the strength of the arch sto make it impregnable, and he advised that as a first step, the Council suthorize a sufficient expenditure to place in the arch three additional rings of brick masonry behind the other arch, so that it would take all of the pressure which might come against it. Mr. Oimsted admitted a possibility that this additional reinforcement might not be sufficient, A and rate, he heartily in favor of trying that plan.

he is heartly in rayor of trying that plan.

President Silver and other members of the Council participated in the discussion, and they, too, thought the City Engineer's plan was worth a trial. The City Attorney informed the members that the adoption of the plan would in no wise affect the legality of the contract for the construction of the tunnel. The board recommended that \$1000 be appropriated for that purpose.

THEY MUST ACT.

ICENSE REVOCATION CERTAIN. Though the Board of Police Commissioners may dislike the idea of revoking the license of a law-breaking saloon keeper, and prone as they are to find loopholes through which such law-breakers may escape, the board is now in such position that it will be obliged to revoke at least one license at the next meeting or at the next but one. He appealed to the Superior Court, and it had been in that court until this week, when it was decided by Judge Smith that Engert's conviction was regular, and that he must pay the fine. Official notification of this conviction will be presented at the next meeting of the board, and it will be interesting to note what is done about it. WANTS TO BE CHIEF.

ACCEPTED TWO BIDS.

PUMPING PLANTS ORDERED.

The Zanja Committee of the City Council, to whom were referred the several bids recently submitted for the construction of pumping plants along the river, met yesterday and decided to recommend to the Council the acceptance of two of the bids. One of the plants will be operated by electricity, and for the construction of this the bid of the East Side Lighting Company to erect the plant for \$1700 is to be accepted. The other is to be operated with power from a gasoline engine, and to supply the necessary machinery the bid of the S. W. Luitweller Company, at \$1754, has been accepted.

The original intention of the Council was to erect four such plants, but it was later decided to first put in two as a trial of what can be done with them, and later, if necessary, two others will be installed. The purpose is to secure for the zanja system the underground flow of water below the bed of the Los Angeles River. This flow has never been measured, but it is known that much of the water which flows in the river above the city sinks in the sands and has been lost.

By means of the pumping plants it is thought that a sufficient flow will be secured in the sanjas to prevent any loss of crops during, the summer. PUMPING PLANTS ORDERED.

what is known as the district messenger com-panies, and during the last month the matter has been before the board sev-eral times. The City Electrician was recently instructed to communicate with eastern cities to secure copies of the ordinances on the subject in force there, it having been asserted by the messenger companies here that excep-tions were made in favor of such com-panies in the East. Replies have been received from a number of cities, and these letters were to have been subreceived from a number of cities, and these letters were to have been submitted to the board yesterday. It was decided, however, to defer action for one week. There is a decided division in the Council as to whether the ordinance should be enforced, some of the members deciaring that the messenger companies should not be made to place their wires underground, while others insist that no exceptions should be made. It is probable that there will be a contest in the Council when the matter is finally reported upon.

Will Attend the Funeral. The members of the Board of Fire Commissioners will be officially notified by Mayor Eaton of the death of Hon. Frank Sabichi, and will request that they attend the funeral in a body. Mr. Sabichi was a member of the Board of Fire Commissioners during the administration of Hon. M. P. Snyder as Mayor, and prior to that he had held other public positions. He was formerly a member of the volunteer fire department, and always took interest in department affairs.

Payments of City Taxes. The collection of the second install nent of city taxes this week has bee ment of city taxes this week has been in such amounts that the City Auditor has been able to make two apportionments among the city funds, one of \$10,000 and another of \$15,000. Yesterday more than \$8000 was collected by Tax Collector White, and before Monday there will be in his hands sufficient money to make another \$15,000 apportionment. This week's receipts will cause a disappearance of a number of the deficits in the accounts, and today's report of the Auditor will show the funds of the city to be in better condition than they have been for months.

Driving on City Bridges. Driving on City Bridges.

City Attorney Haas has prepared an ordinance prohibiting the driving of horses faster than a walk on any part of the city bridges. Under the old ordinance it was necessary to prove that a driver had driven clear across the bridge faster than a walk, and it applied only to the Buena-Visita-street, Downey-avenue and the Aliso-street bridges, but the new ordinance includes all of the bridges in its provisions. The penalty is a fine of from \$5\$ to \$100, or imprisonment for from five to 100 days. The ordinance will be presented in the City Council Monday.

Police Right of way. At the last meeting of the City Council an ordinance was presented providing that police patrol wasons and ambulances should have right of way through the streets over every other class of vehicles. The measure was referred to the Board of Public Works and was considered by that body yesterday. The board decided to recommend to the Council that the ordinance be placed upon its passage.

Street Work Ordered.

In the report of the Beard of Public Works to the City Council Monday the recommendation will be made that the petition of C. M. Stimson and others asking that a cement sidewalk be constructed on both sides of Eighteenth street between Main street and Grand avenue, be granted.

The board will recommend the granting of the petition for the complete improvement of Lebanon street between Sixth and Seventh streets under the bond provisions of the Vrooman act. The improvement of Herniock street between Eighth and Ninth will be ordered.

times spoken of during the trial yesterday as a "fugitive from justice." Meyer is now running the grocery alone.

The complaint alleges that Meyer and Platta were both eager to raise some money. Accordingly, in February, 188, they drew up a promissory note for 1900, due in ninety days, payable to C. S. Klous at No. 123 South Los Angeles street, bearing 8 per cent. interest and signed by Flatts. This they presented to Mrs. Townsend, requesting her to go security, on it—although, it is said a similar request had several times been made to both the Townsends before and they, having talked it over, had always refused.

Before she took the pen to write, however, Mrs. Townsend says that both Mayer and Platts assured her that they were about to increase their stock is 3500 worth; Meyer was to dig up 3500 by means of a mortgage, and Platts was to get his \$300 by the note they wished her to secure; they were to get their goods of M. W. Stewart & Co., wholeasle men in Los Angeles, and C. S. Kious was manager of the firm, and that after getting the goods they intended to sell for cash only and could seally pay off the note in ninety days.

Mrs. Townsend was persuaded and on the note went her signature. Then, it is alleged, the grocerymen took the note his wife had signed, to her husband, and informed him that she had requested him to do likewise. He in turn was astounded, but the same sort of story is said to have been imposed on him as won his wife, and down went his name. The note was now secured. The complaint, however, fails to recite the domestic scene in the Townsend household when the old couple put their heads together and realized what had happened to them. At any

ness then owing to M. W. Stewart & Co.

When the note matured it had not been paid, and Kious began suit to recover, obtaining juagment in January, 1899, against Platts and the Townsends for \$300 and costs of suit. The Townsends now say harsh things about their lawyer in the action and aver that he sold them out. The judgment was compromised, however, for \$350 and paid.

MRS. MARCEAU AGAIN. APPEARS IN TOWNSHIP COURT Mrs. Fiske-Marceau-Fennell mad another bow to justice in this count;

another how to justice in this county yesterday, when she appeared in the Township Court to undergo her preliminary examination on the felonious charge of abduction.

Mrs. Marceau was arrested at Bakersfield on April Fool's day, on her way to San Francisco, her former husband. Col. Marceau, accusing her of attempting to steal their little son. "Theo." He swore to the comp'aint only after the officers bungled at Lancaster in the service of a writ of habeas corpus and got the wrong boy, the

after the officers bungled at Lancaster in the service of a writ of habeas corpus and got the wrong boy, the mother and little "Theo" being allowed to go on their way north. But at Bakersfield she hastened against a charge of felony and was brought back to Los Angeles—she and "Theo"—by the Kern county Sheriff.

She was arraigned at that time before Justice James. who released her on her own recognizance, and set her preliminary hearing for the 20th inst. subject to her desire for an earlier examination. Two or three days ago the attorneys got together and some of them thought it had been agreed to hold the preliminary yesterday afternoon, but when the matter was called the presecution was unpepared and was rather insistent that nothing could be done before the 20th inst.

But Mrs. Marceau's attorneys were eager to have the matter entirely disposed of before she is compelled to go to San Francisco, where the controversy recently transferred from this county is to be fought out on the 23rd inst., and they stood strong for Tuesday. Mrs. Marceau didn't want to go into divorce proceedings in the northern court—to say nothing of the inconvenience that would be caused her in chasing from one end of the State to the other.

The prosecution wanted plenty of time, for a long array of witnesses is to be summoned—some from as far away as Bakersfield—but ex-Senator White begged that the State be com-

pelled to exercise "Vigilar matter, as well as "legal ag Justice James finally on let the examination for Tam on, at which time the crim a parental squabble for a clought out. Mrs. Marceau that she will be discharged.

The Townsends are an English couple who live at Garvansa, where they own fifty-three acres of land, which is kept under cultivation, as well as conter holdings and money that give them the reputation of being well-to-do. The old man is a type—short and heavy-set, with plenty of gray hair and broad, bushy whiskers, his upper tilly wide and smooth.

Mrs. Townsend, who, under cross-examination, confessed that the burden of her years is 60, is also typical of the livesy seed that the burden of her years is 60, is also typical of the energetic little-housewife, who is always neat and busy, with something very important to be done, if not indoors, then out.

"I first do up my housework," said Mrs. Townsend yesterday, nettled a bit by a seeming insinuation that she was slack in business, "and then I take it hoe and go out into the yard and hoe for my own amusement—if there are any weeds that need cutting," she continued, as much as to say that weeds had a hard time on the Townsend place. And her small, angular features lit up with a light of satisfaction, as she settled back in her chair.

RIVERSIDE IN GALA ATTIRE.

FIRST STREET: PAIR ON PACIFIC COAST OPENS THERE TODAY.

Everything Bright and Ready to Dazzle the Eys of the Visitor to the Novel Carnival—Golf Tournament Opened Yesterday—Formal Opening of Fair and Polo Game Today.

Riverside's great street fair will open in a biase of glory today (Saturday.) It is the first event of the kind ever held on the Pacific Coast, and nothing has been left undone to contribute to its success. The city of Riverside, the center of the greatest orange-growing district in the world, is already bright with color-orange, green and white, the colors adopted for the carnival, predominating. The streets in the business section of town are lined with booths, varied in design and rich in color, where wares and novelties of every description will be on exhibition and for sale. There are tents, big and little, wherein are all manner of attractions; merry-gorounds, gypsy wagons, and a wealth of other good things, that will daszle the eye of the visitor, if they do not give him the razzle. Already the streets are thronged with a heterogeneous conglomeration of people-blue-blooded polo players, crack golfers, Indians, Mexicans and a host of country folk, all out for a good time, and sure to have it.

Yesterday a golf tournament opened,

SERVICES AT ST. VIBIANA'S.

The Rt. Rev. Bishop George Montgomery was the celebrant of the "Mass of the Pre-Sanctified," at St. Vibiana's Cathèdral on Main street, the celebration beginning at 9 o'clock yesterday morning. The resident priests of the cathedral assisted. The principal ceremony was the unveiling of the crucifix, which was covered on Passion Sunday, two weeks ago. After a two hours' ceremony, and the procession of the blessed sacrament, the crucifix was exposed in the main aisle for public veneration. Then the mass began.

For the only time during the year, all the lights in the cathedral save those about the crucifix, were extinguished, to remain out till today at 7 o'clock, when the Blessing of the New Fire will take place.

At 3 o'clock yesterday afternoon, the exercises of the Way of the Cross occurred. Every Catholio church has fourteen pictures hung about its walls at appointed spots. These pictures illustrate the sufferings of the crucifixion, recalling different scenes in the last journey of our Lord, beginning with His examination before Pilate, and ending with the burial in the sepuicher.

The evening service began at 7:30 o'clock. The organ was still silent, but there was considerable music. "The Lamentations of Jeremiah" were sung in harmony to the Gregorian chant.

Very Rev. Henry Weber, C.SS.R., pastor of the Redemptorist Church in New Orleans, delivered the sermon on "The Passion of Our Savior." Rt. Rev. Bishop Montgomery presided during the chanting of the "Benedictus" and the "Misere," assisted by Very Rev. Father Harnett, pastor of St. Vibiana's, and Rev. Father Clifford, Molony and Hennessy of the resident pifesthood, and by the following visiting clergymen: Very Rev. Father McGeough of Denver, Rev. Father McG SERVICES AT ST. VIBIANA'S.

Other features of the hospital worthy of mention and all of which have been subject to more or less improvement during the last few years are the maternity cottage, laundry, kitchen, milk-house, etc. Most notable of all the outward improvements is the beautifying of the grounds, which, under the direction of a skilled gardener, an inmate of the hospital, have been made to resemble a well-kept park. A hothouse has been erected, in which many rare and beautiful plants are propagated. The front yard of the hospital is the especial pride of Superintendent Bryant and Supervisor Wirsching, who is chairman of the Hospital Committee. Dr. Bryant has had the grounds and conservatories of his friends in the city stripped of many of their choicest treasures, in order to beautify the hospital grounds, and the city parks have also been drawn upon for plants. Supervisor Wirsching spends much of his time at the hospital and makes its needs his constant study. While Dr. Bryant was planning flower beds and grass plats, Mr. Wirsching, with his utilitarian instincts, devoted himself to the planting of a small orange grove, and the installation of a poultry yard, where several hundred chickens and nearly a hundred ducks are now producing eggs and meat for the hospital is furnished by the county farm.

ck to Advance to 25c Share at Midnight ril 16, 1900.

Owing to the great demand for our stock, and having made large investments in machinery and tools, developed our water supply, constructed roads and made other improvements, we feel justified in advancing the price of our stock to 25 cents a share, which advance will take effect at midnight April 16th, 1900. Positively no stock will be sold below this figure after this date.

The stock of the Big Panoche Oil Company, whose territory adjoins that of the Yankee Doodle Company, is now selling at \$3.00 per share. The stock of the Old Glory Company, whose territory is in the same district, is now selling for 50 cents a share. Stocks of the different companies of the Coalinga district, where our territory is located on the same formation, are now selling for thousands of dollars per share, that were to be bought in the open market a few months ago for a few dollars. In addition to these other fields and prospects, our Newhall property gives promise of immediate returns. Its richness in oil has already been onstrated by adjoining wells, and alone justifies this advance in our stock.

CYANIDE OF POTASSIUM. Under the Dingley tariff act cyanides of potassium and of sodium have been paying a duty of 12½ per cent., but the authorities have set up the contention that it is a "chemical mixture," and therefore dutiable at 25 per cent. No final decision has been made.

LINSEED OIL DEARER. The price of linseed oil has been advanced 1 cent per gallon in the East, making the cost is cents f.o.b. A steadily-increasing demand has occasioned the rise.

POINTS ON COTTON TRADE. According to the Chattanooga Tradesman the southern group of cotton milis will need 1,500,000 bales of cotton this year, and the milis of the whole country, states the name authority, will consume 3,750,000 bales. So the South manufactures nearly half the cotton now. At the recent meeting in Charleston of the Southern Cotton Spinners' Association, at which it was decided to maintain southern yarn prices, it developed that there is not a cotton-yarn mill in North Carolina that has not sold its output for from four to six months ahead.

As March ended the first quarter of the new year, it is pertinent to say that a careful and conservative examination of figures shows remarkable progress in southern cotton-mill developments. According to the Journal of Commerce, contracts have been let for practically 67 mills; their spindles will number 64,563 of these 164,963 are going into established mills. The working up of knit goods also came forward in March. The new establishments in this class number eight; six of them have an aggregate capital of \$141,000; the other two did not mention their investment.

merchants will shortly put fresh asparagus on the London and other markets in Great Britain. Navel oranges
from California have this year eclipsed
the finest sent from Spain, and the
pears have been better than the best
from Paris. These successes have
prompted growers in California to
raise asparagus for English consumption. In New York, California asparagus has been highly appreciated, and it
is expected that the competition with
the Paris asparagus, which is sent the

TIRED OF LIFE.

YOUTH TOOK CHLOROFORM, BUT A young man not yet 30, who gave the name of William Summers, tried to commit suicide at Westlake Park last night by taking chloroform. He did not take enough of the fluid, however, and will probably experience nothing worse than a nervous shock as a result of his rash act.

Word was received at the station a little before 10 o'clock that a young man had taken chloroform in the park and was in a paralyzed state. The patrol wagon was dispatched to the soene in haste. When the officers arrived they found the young man lying on a bench near the Seventh-street curb line, with his muscles twitching as if about to go into a spasm. By his side lay a three-ounce bottle of chloroform, from which about half an ounce was missing. He was hurriedly loaded into the wagon and the horses made the long run back to the station at a gallop.

A search of his clothing produced an

A search of his clothing produced an old-style 38-caliber revolver, a razor, and a copy of an evening paper. The paper contained an article relating to the death of Mrs. Warthem at Santa Monica, headed "Died in the Breakers." Beneath this caption the young man had written, "Tours truly, next." There was nothing on the man to indicate his identity.

Everybody about the station rushed into the Receiving Hospital, when the wagon arrived, to assist in the resuscitation of the man, The Police Surgeon felt his pulse, looked him over carefully, then took a strap and fetched the patient a sharp rap across the sole of his shoe. The would-be suicide sat right up on the operating table.

ters of its own have become almost a necessity.

At the meeting of the club last evening, held in the assembly-room of the Chamber of Commerce, this important question was discussed for over an hour. There was an effort on the part of several of the more enthusiastic members to urge the selection of a temporary home, in order that dark rooms might be fitted up at once, and other accommodations enjoyed, while the House Committee is on the look-out for permanent rooms. This phase of the matter was considered last evening, and it was decided to call or propositions from those having desirable rooms to rent to the club. A home may be chosen at the next meeting.

A demonstration of the qualities of platinograph, a new photo peper manufactured in this city, was given under the direction of A. S. C. Forbes. The new paper is much like platinotype, its chief strong point being that it is much cheaper. It has the same rich gray and black tone and produces some good results.

The resignation of Charles Fulfer Gates, as chairman of the Outing Committee, was tendered last evening, and accepted.

Cereal Crop by Twenty Per Cent. and Fix the Price at a Dollar a

Bushel.

[A. P. NIGHT REPORT.]

MINNEAPOLIS, April 13.—The Journal says: "All the farmers of the world in a sort of international trust to restrict the production of wheat and raise prices is the plan which it is hoped to carry into effect at the international agricultural conference in Paris, July 3 to 16. It is proposed to ask the farmers of the world to reduce their wheat output by 30 per cent, and not to self a bushel for less than a dollar.

"J. C. Hanley of St. Paul, executive agent of the Farmers' Alliance and Industrial Union, the National Cotton Growers' Association, the Farmers' Federation of the Mississippi Valley, and the National Grain Growers' Association is the chief promoter in the agricultural trust in America. Prof. G. Ruhland of the University of Fribourg, Switzerland, is the chief promoter of the plan in Europe. The idea was conceived by these two men independently. "Hanley, who has been interested in many hold-your-wheat schemes, is prominently associated with the farmers' elevator and various cooperative undertakings. He has long believed that if the farmers would only come to an understanding as to limiting production and agree to sell only when their price could be obtained, they could easily master the situation.

"As a professor of economics, Prof. Ruhland had come to the same conclusion. His study of the agrarian problems of different countries led him to believe the only cure for the wide-spread troubles of farmers, which are much more severe in the Old than the New World, is to restrict production. Both were hard at work getting the idea into practice, when they encountered each other through correspondence. Since then they have been working with a common idea, vis., to persuale the International Agricultural Congress to indorse the plan and recommend it to the various national associations for application next year.

"While 30 per cent. can be secured, the world is wheat crop would be reduced about 125,000,000 bushels, which is, he says, enough to bring the price up to it. To help

From the statements made by those who witnessed the entire affair, it appears Mr. Dillon was standing on First street between Second and Fine, conversing with everal friends, when Dr. Shultz approached. Mr. Dillon grested him and extended his hand, but the doctor is said to have refused to shake hands with the editor. He is also said to have made some remark about campaign matters which was not as compilmentary as it was forcible. At this Mr. Dillon struck him in the face, and followed it with another blow. Dr. Shultz retreated into a store and there esised a bottle, and returning, was about to use it as a weapon, when he was esized by Dr. Schurer, who took the bottle from him. Other persons interfered and stopped the fight. Dr. Shultz et once swore out a warrant for the arrest of Mr. Dillon on a charge of battery, and the case will probably

EDITOR AND DOCTOR FIGHT.

LONG BEACH April 12.—[Regular Correspondence.] Bitter personal feeling, engendered during the recent municipal campaign in this city, was the cause of a lively street fight late this afternoon in which J. S. Dillon, editor of the Evening Tribune, and Dr. M. A. Shultz, a well-known physician, were the combatants. The fight was an impromptu affair, and neither of the contestants was in training. It was not according to the rules of any prize ring and it lasted only one round. Mr. Dillon was, during the campaign, a champion for the side which won at the recent election, and Dr. Shultz was equally, though not so effectively, detive on the other side, but that there existed as a result of the campaign any personal feeling was not known until today.

prices quoted on the season's prettiest hats. We have prepared more than abundance. The most charming styles, most becoming shapes and most appropriate trimmings for Easter. The illustrations show a few of the styles. Every conceiveable shape from the ordinary sailor to the most elaborate pattern hat from Paris. Especially strong lines and bewildering assortments will be shown at

\$2.95, \$3.95, \$5.00, \$6.50 and \$10.00

The advantage of buying a hat ready to wear is a great one. You can select a dozen different hats, try them all on and see which is most becoming. You run no chance in having a hat turn out differently than you expected when you gave the order or selected the materials. Plenty of fitting rooms and hundreds of hats make buying easy. Prices were never so attractive as now.

First—They are imported by us direct of the makers and can be sold for \$1.50 a pair. If we bought them of jobbers we would have to sell them for \$1.85 or \$2.00.

Second—They are made of selected real kid-skins of the same quality used in every good \$2.00 glove on the market. Third-They are made in five different and distinct cuts.

Fourth—They come in three different lengths of fingers.
Fifth—Some are made with gussets and some are made without.
Sixth—They come in 26 different styles of embroidery.
Seventh—They come in every evening tint, pastel shade and

Eighth—They are all new, fresh, pliable and durable, having been just received from the manufacturer.
